

## Oracle Time and Labor Connector

TimeLink, an Oracle Certified Partner, offers seamless front-end data collection solutions to Oracle Time and Labor customers. TimeLink's Oracle Time and Labor Connector has been validated as part of the Oracle Application Integration Initiative. As an Oracle lab-tested solution, this ensures timely integration to OTL, improves system implementation cycles, and provides for smoother upgrades and simpler maintenance. TimeLink's OTL Connector provides bi-directional integration between TimeLink's approved data collection technologies and Oracle Time and Labor.
