

## SAP PP-PDC Connector

TimeLink, a longtime member of the SAP Software Partner Program, offers seamless front-end data collection solutions to SAP clients. A functional component of TimeLink's Synapps platform, the Production Planning (PP-PDC) Connector is a standardized R/3 interface. The interface uses SAP BAPI technology to insure consistent and reliable data integration with your SAP R/3 solution.

### Benefits of a Certified Connector

- Ensures data integrity
- Speeds integration
- Provides ongoing compatibility with SAP (future-proof)
- SAP lab-tested, field proven
