

SAP CATS Connector

TimeLink, a longtime member of the SAP Software Partner Program, offers seamless front-end data collection solutions to SAP clients. A functional component of Time Link's Synapps platform, the SAP Cross-Application Time Sheet (CATS) Connector enables real-time integration of employee data with many modules of SAP via CATS. The CATS Connector is BAPI-enabled and allows for a high level of flexibility in its implementation.

Benefits of a Proven Connector

- Ensures data integrity
- Speeds integration
- Field proven
